

# System Track

Series L Track is the most commonly used floor anchoring product in vehicle conversions (layout/configuration). Its ease of installation, light weight and superior strength make it the most popular choice for anchoring Sure-Lok Wheelchair Tie-Downs and Occupant Restraint Systems as well as seats to vehicle floors and sidewalls.

All Series L Track shown has a natural finish and is 100 inches long, unless otherwise noted. All predrilled Series L Track shown has 82 degree countersunk mounting holes for 1/4 inch diameter fasteners spaced on 4 inch centers, unless otherwise noted. For available Series L Track Installation Hardware Kits, refer to page 24.

Visit [sure-lok.com](http://sure-lok.com) for downloadable dimensional track drawings.

**⚠ WARNING** Proper track selection is necessary for the installation of Sure-Lok Wheelchair Tie-Downs and Occupant Restraint Systems. Refer to application layout pages 26-30 for additional information.

## FE750-01

### Medium-Duty Series L Track

Material: 6061-T6 Aluminum  
Weight: 5.2 lb/2.4 kg

## FE750-01-PD4

### Medium-Duty Series L Track with Mounting Holes

Material: 6061-T6 Aluminum  
Weight: 5.1 lb/2.3 kg

## FE751-01

### Medium-Duty Series L Track with Flanges

Material: 6061-T6 Aluminum  
Weight: 6.4 lb/2.9 kg

## FE751-01-PD2

### Medium-Duty Series L Track with Flanges and Mounting Holes Spaced on 2" Centers

Material: 6061-T6 Aluminum  
Weight: 6.2 lb/2.8 kg

## FE751-01-PD4

### Medium-Duty Series L Track with Flanges and Mounting Holes

Material: 6061-T6 Aluminum  
Weight: 6.4 lb/2.9 kg

## FE751-01-100WBT

### Medium-Duty Series L Track with Flanges and 5/16" Mounting Holes

Material: 6061-T6 Aluminum  
Weight: 6.3 lb/2.9 kg

### FE752-01

#### Medium-Duty Angled Series L Track

Material: 6061-T6 Aluminum  
Weight: 5.1 lb/2.3 kg

### FE752-01-PD4

#### Medium-Duty Angled Series L Track with Mounting Holes

Material: 6061-T6 Aluminum  
Weight: 5.1 lb/2.3 kg

### FE744-01-PD4

#### Heavy-Duty Series L Track with Mounting Holes

Material: 7075-T6 Aluminum  
Weight: 5.1 lb/2.3 kg

### FE748-01-PD4

#### Heavy-Duty Series L Track with Flanges and Mounting Holes

Material: 7075-T6 Aluminum  
Weight: 5.6 lb/2.5 kg

### FE748-01-PD4C

With Clear Anodized Finish

### FE200761

#### Heavy-Duty Series L Track with 4 (.26" diameter) Countersunk Mounting Holes, 8" Section

Material: 7075-T6 Aluminum  
Weight: 0.4 lb/0.2 kg

### FE200763

#### Heavy-Duty Series L Track with Flanges and 4 (.26" diameter) Countersunk Mounting Holes, 8" Section

Material: 7075-T6 Aluminum  
Weight: 0.5 lb/0.2 kg

### FE200762

#### Heavy-Duty Series L Track with 2 (.42" diameter) Mounting Holes, 9" Section

Material: 7075-T6 Aluminum  
Weight: 0.5 lb/0.2 kg

### FE200765

#### Heavy-Duty Series L Track with Flanges and 2 (.42" diameter) Mounting Holes, 9" Section

Material: 7075-T6 Aluminum  
Weight: 0.6 lb/0.3 kg

### 2025

#### Heavy-Duty Series A Vertical Track

Material: High-Strength Steel, 11 Gauge  
Minimum Yield: 50,000 psi.  
Finish: Powder Coat Grey  
Weight: 13.0 lb/5.9 kg  
Length: 10 ft/3.0 m

### 2025-060 60" Section

Weight: 6.0 lb/2.7 kg

### FE702-01

#### Heavy-Duty Series A Horizontal Track

Material: High-Strength Steel, 11 Gauge  
Minimum Yield: 50,000 psi.  
Finish: Powder Coat Grey  
Weight: 18.5 lb/8.4 kg  
Length: 10 ft/3.0 m

### FE702-01-048 48" Section

Weight: 7.4 lb/3.4 kg

### FE702-01-060 60" Section

Weight: 9.6 lb/4.4 kg
